

SonicWALL SOHO3

Internet Security Appliance

The SonicWALL SOHO3 Internet security appliance is a flexible firewall security solution for small businesses or branch offices. The SOHO3 offers a variety of configuration and service options, including a choice of 10 or 50 node configurations, IPSec VPN, and support for the comprehensive portfolio of SonicWALL security services.

The SOHO3 features an intuitive Web management interface and administration wizards that simplify security management. The SOHO3 provides enterprise-class security and supports the comprehensive portfolio of SonicWALL Security Services, including Network Anti-Virus, Content Filtering, and Authentication Service. This eliminates the cost and complexity of installing and managing separate devices and software packages.

The desktop SOHO3 appliance, built on SonicWALL's dedicated security ASIC, delivers the fastest performance in its class. The SOHO3 includes hardened firewall protection with an ICSA-certified, stateful inspection firewall and support for SonicWALL's IPSec VPN that delivers fast, secure access and is compatible with any manufacturer's IPSec-compliant VPN gateway.

A standards-based appliance, the SOHO3 requires no operating system maintenance often found in software-based security products. The SOHO3 fits perfectly into a large corporate network infrastructure and can be managed by a wide array of local or remote options including CLI, Web-interface, and SNMP. For centralized management and policy setting, the award-winning SonicWALL Global Management System is designed to reduce administration overhead as security requirements scale.

The SonicWALL SOHO3 Internet security appliance meets the demands of growing businesses and adapts to network security threats, protecting an organization's valuable data. With SonicWALL's security ASIC, the SOHO3 delivers maximum multi-user firewall and VPN performance.

SonicWALL SOHO3

Internet Security Appliance

SonicWALL SOHO3 Features and Benefits

- **Flexible, Comprehensive Security Solution.** The SonicWALL SOHO3 provides a variety of configurations and services to tailor security solutions to meet the needs of small businesses and branch offices. The SOHO3 provides enterprise-class security and supports SonicWALL's comprehensive portfolio of security services, such as Network Anti-Virus, Internet Content Filtering, and Authentication Service.
- **Intuitive Web Management Interface.** The SOHO3 includes an easy-to-use Web management interface and administration wizards to dramatically reduce the time and cost of installing and managing security.
- **Powerful Architecture with Dedicated Security ASIC.** Built on SonicWALL's dedicated security ASIC, the SOHO3 delivers the fastest performance in its class to guarantee the best possible performance for broadband connections.
- **IPSec VPN.** The SOHO3's enterprise-class VPN delivers fast, secure access to corporate resources through any manufacturer's IPSec-compliant VPN gateway.
- **ICSA-Certified Stateful Packet Firewall.** The SOHO3 adheres to industry standards for enterprise-class firewall protection with ICSA-certified, stateful packet inspection technology.
- **AutoUpdate Security.** SonicWALL's AutoUpdate service sends automatic alerts of new software and feature updates as soon as they're available to ensure administrators keep network security current and lower maintenance costs.
- **Flexible Remote Management.** The SOHO3 fits perfectly into a large corporate network infrastructure and reduces administration overhead because it can be managed locally, on a device-by-device basis using CLI, or globally using SonicWALL Global Management System.
- **Complete Network Protocol Support.** The SOHO3 supports the full complement of broadband connectivity requirements, including NAT and DHCP, to allow all users to share a broadband Internet connection. It also supports Point-to-Point Protocol over Ethernet (PPPoE), a widely used protocol for DSL connections.

SonicWALL's ICSA-certified Internet security appliances consistently receive awards from industry-leading publications.

SonicWALL SOHO3 Technical Specifications

Processor: Toshiba-133Mhz with SonicWALL's dedicated security ASIC
RAM: 16 MB
Flash Memory: 4 MB
Interfaces: (1) WAN 10/100 Base-T auto-sensing
(1) LAN 10/100 Base-T auto-sensing
(1) Serial Port
Concurrent Connections: 6,000
Firewall Performance: 75 Mbps
Firewall Users: 10 Users/50 Users

3DES (168-Bit): 20 Mbps
VPN Tunnels: 10
Dimensions: 8.25 x 6.5 x 2 inches
(20.9 x 16.5 x 5.1 cm)
Weight: 1.1 lbs. (.48 kg)
LEDs: Status (Power, Test)
Ethernet (Link, 100, Activity)
Power: 100V to 240V AC

Standards: TCP/IP, UDP, ICMP, HTTP, RADIUS, IPSec, IKE, SNMP, FTP, DHCP, PPPoE
Certifications: ICSA Firewall
Regulatory Compliance: UL, CE, GS Mark, VCCI, FCC Part 15, TUV, C-Tick
Environment: Temperatures 40-105 F, 5-40 C
Humidity 5-90% non-condensing
