## E-Class NSA

Product	NSA E5500	NSA E6500	NSA E7500
Part Numbers	01-SSC-7008 01-SSC-7029 TotalSecure	01-SSC-7004 01-SSC-7028 TotalSecure	01-SSC-7000 01-SSC-7027 TotalSecure
Market Positioning and Specific Features	A high performance, multi-service network security platform engineered to be the work horse of the enterprise network environment with (8) eight gigabit interfaces. Includes: <ul style="list-style-type: none"> <li>▪ SonicOS Enhanced</li> <li>▪ Multi-WAN Support</li> <li>▪ ISP Failover and WAN Load Balancing</li> <li>▪ Single Sign-On</li> <li>▪ Route-based VPN</li> <li>▪ 256 802.1q VLAN Interfaces</li> <li>▪ Object-based/Group-based Policy Management</li> <li>▪ QoS/Bandwidth Management</li> <li>▪ Stateful A/P High Availability</li> <li>▪ Active/Active UTM</li> </ul>	Engineered to meet the needs of the expanding network by providing a high performance, scalable, multi-function threat prevention appliance. Includes: <ul style="list-style-type: none"> <li>▪ SonicOS Enhanced</li> <li>▪ Multi-WAN Support</li> <li>▪ ISP Failover and WAN Load Balancing</li> <li>▪ Single Sign-On</li> <li>▪ Route-based VPN</li> <li>▪ 256 802.1q VLAN Interfaces</li> <li>▪ Object-based/Group-based Policy Management</li> <li>▪ QoS/Bandwidth Management</li> <li>▪ Stateful A/P High Availability</li> <li>▪ Active/Active UTM</li> </ul>	The SonicWALL E-Class NSA E7500 is the flag ship of the E-Class NSA product family designed to be the most scalable, high performance and reliable multi-function threat appliance in its class. Includes: <ul style="list-style-type: none"> <li>▪ SonicOS Enhanced</li> <li>▪ 16-Core Processor</li> <li>▪ Unrestricted Nodes</li> <li>▪ 2,500 VPN Client Licenses</li> <li>▪ 512 802.1q VLAN Interfaces</li> <li>▪ Object-based/Group-based Policy Management</li> <li>▪ QoS/Bandwidth Management</li> <li>▪ Stateful A/P High Availability</li> <li>▪ Server Load Balancing</li> <li>▪ Active/Active UTM</li> </ul>
Bundled Services	<ul style="list-style-type: none"> <li>▪ 30 Days GAV, Anti-Spyware, IPS and Application Intelligence</li> <li>▪ 30 Days ViewPoint Reporting Software</li> <li>▪ 30 Days CFS Premium</li> <li>▪ 30 Days 25-user Client/Server Anti-Virus Suite</li> <li>▪ 30 Days Deep Packet Inspection SSL</li> </ul>	<ul style="list-style-type: none"> <li>▪ 30 Days GAV, Anti-Spyware, IPS and Application Intelligence</li> <li>▪ 30 Days ViewPoint Reporting Software</li> <li>▪ 30 Days CFS Premium</li> <li>▪ 30 Days 25-user Client/Server Anti-Virus Suite</li> <li>▪ 30 Days Deep Packet Inspection SSL</li> </ul>	<ul style="list-style-type: none"> <li>▪ 30 Days GAV, Anti-Spyware, IPS and Application Intelligence</li> <li>▪ 30 Days ViewPoint Reporting Software</li> <li>▪ 30 Days CFS Premium</li> <li>▪ 30 Days 50-user Client/Server Anti-Virus Suite</li> <li>▪ 30 Days Deep Packet Inspection SSL</li> </ul>
General Features Across all NSA Appliances	<ul style="list-style-type: none"> <li>▪ Deep Packet Inspection Firewall</li> <li>▪ Clean VPN</li> <li>▪ Dynamic Routing OSPF/RIP</li> <li>▪ IPSec 3DES/AES Encryption</li> <li>▪ Voice and Video over IP</li> <li>▪ Route-based VPN</li> <li>▪ DHCP Server/DHCP Relay</li> <li>▪ Policy-based User Authentication</li> <li>▪ Active/Active UTM</li> <li>▪ Bandwidth Management/QoS</li> </ul>		
Specifications	<ul style="list-style-type: none"> <li>Nodes: Unrestricted</li> <li>Interfaces: 8 GbE, 1GbE HA Interface, 2 USB, 1 Console</li> <li>Stateful Firewall Performance: 3.9 Gbps</li> <li>GAV Performance: 1.0 Gbps</li> <li>IPS Performance: 2.0 Gbps</li> <li>Full UTM Performance: 850 Mbps</li> <li>VPN Performance: 1.7 Gbps (3DES/AES)</li> <li>Site-to-Site VPN Policies: 4,000</li> <li>Global VPN Client Licenses: 2,000 Bundled/4,000 Max</li> <li>Virtual Assist Technicians: 1 Bundled/25 Max</li> <li>Concurrent Connections: 750,000 (Max)</li> <li>New Connections/Second Support: 15,000</li> <li>Must be purchased with appliance</li> </ul>	<ul style="list-style-type: none"> <li>Nodes: Unrestricted</li> <li>Interfaces: 8 GbE, 1GbE HA Interface, 2 USB, 1 Console</li> <li>Stateful Firewall Performance: 5.0 Gbps</li> <li>GAV Performance: 1.69 Gbps</li> <li>IPS Performance: 2.3 Gbps</li> <li>Full UTM Performance: 1.59 Gbps</li> <li>VPN Performance: 2.7 Gbps (3DES/AES)</li> <li>Site-to-Site VPN Policies: 6,000</li> <li>Global VPN Client Licenses: 2,000 Bundled/6,000 Max</li> <li>Virtual Assist Technicians: 1 Bundled/25 Max</li> <li>Concurrent Connections: 1,000,000 (Max)</li> <li>New Connections/Second Support: 20,000</li> <li>Must be purchased with appliance</li> </ul>	<ul style="list-style-type: none"> <li>Nodes: Unrestricted</li> <li>Interfaces: 4 GbE, 4 SFP (SX/LX /TX), 1 GbE HA Interface, 2 USB, 1 Console</li> <li>Stateful Firewall Performance: 5.6 Gbps</li> <li>GAV Performance: 1.84 Gbps</li> <li>IPS Performance: 2.58 Gbps</li> <li>Full UTM Performance: 1.7 Gbps</li> <li>VPN Performance: 3.0 Gbps (3DES/AES)</li> <li>Site-to-Site VPN Policies: 10,000</li> <li>Global VPN Client Licenses: 2,000 Bundled/10,000Max</li> <li>Virtual Assist Technicians: 1 Bundled/25 Max</li> <li>Concurrent Connections: 1,500,000 (Max)</li> <li>New Connections/Second Support: 25,000</li> <li>Must be purchased with appliance</li> </ul>
General Upgrade Options Across all NSA Appliances	<ul style="list-style-type: none"> <li>▪ Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence</li> <li>▪ Comprehensive Gateway Security Suite</li> <li>▪ Comprehensive Anti-Spam Service</li> <li>▪ Deep Packet Inspection SSL</li> <li>▪ Client/Server Anti-Virus Suite</li> <li>▪ Content Filtering Service</li> <li>▪ Virtual Assist/Access</li> <li>▪ Global Management System</li> <li>▪ ViewPoint Reporting Software</li> <li>▪ Global VPN Client</li> <li>▪ UTM SSL VPN</li> <li>▪ E-Class Support 24x7</li> </ul>		
Key Selling Points	<ul style="list-style-type: none"> <li>▪ Breakthrough multi-core Unified Threat Management performance</li> <li>▪ Ultra high-speed multi-layer threat protection</li> <li>▪ Next generation protection with Application Intelligence</li> <li>▪ Unsurpassed business continuity and high availability protection</li> <li>▪ Extensible and modular architecture</li> <li>▪ Deployment scalability and flexibility</li> <li>▪ Continually updatable platform</li> </ul>		

## SonicWALL Security Services for E-Class NSA Products

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For NSA E5500 (2 Years/3 Years) 01-SSC-922/01-SSC-9236 For NSA E6500 (2 Years/3 Years) 01-SSC-922/01-SSC-9235 For NSA E7500 (2 Years/3 Years) 01-SSC-922/01-SSC-9234  <i>Note: TotalSecure solutions ship with one year of CGSS included</i>	SonicWALL Comprehensive Gateway Security Suite (CGSS) combines E-Class security, productivity and support in a single solution. Available on all E-Class NSA Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> <li>Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service and Application Intelligence</li> <li>Content Filtering Service Premium Edition</li> <li>E-Class Support 24x7</li> <li>ViewPoint Reporting Software</li> </ul>
E-Class Support 24x7		E-Class Support 24x7 SKUs by product  E-Class Support 24x7 available on E-Class solutions only Discounted two- and three-year contracts available  <b>Note: Support is required with all E-Class NSA appliances</b>	For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL E-Class Support 24x7 delivers the support features and quality of service that organizations require to keep their networks running smoothly and efficiently. Includes: <ul style="list-style-type: none"> <li>Direct access to a team of highly-trained Senior Support Engineers</li> <li>Annual subscription to software and firmware updates and upgrades</li> <li>Advance Exchange hardware replacement in the event of failure</li> <li>Annual subscription to SonicWALL Service Bulletins and access to electronic support tools</li> </ul>
Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence		For NSA E5500 (2 Years/3 Years) 01-SSC-6139/01-SSC-6155 For NSA E6500 (2 Years/3 Years) 01-SSC-6138/01-SSC-6154 For NSA E7500 (2 Years/3 Years) 01-SSC-6137/01-SSC-6153	Available on SonicWALL E-Class NSA Series appliances, SonicWALL Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code.
Enforced Client Anti-Virus and Anti-Spyware		5-user License (1 Year) 01-SSC-2743 10-user License (1 Year) 01-SSC-2740 25-user License (1 Year) 01-SSC-2745 50-user License (1 Year/2 Year) 01-SSC-2741/01-SSC-2746 100-user License (1 Year/2 Year) 01-SSC-2742/01-SSC-2747	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. McAfee-based anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. <ul style="list-style-type: none"> <li>Comprehensive virus and spyware protection using a single integrated client</li> <li>Automated enforcement of virus and spyware protection policies</li> <li>Automated deployments of anti-virus and anti-spyware definition and software updates</li> <li>Full featured email attachment filtering</li> </ul>
Comprehensive Anti-Spam Service		Up to 10 Users/1 Domain (1/3 Yr) 01-SSC-7577/01-SSC-7582 Up to 25 Users/1 Domain (1/3 Yr) 01-SSC-7578/01-SSC-7583 Up to 50 Users/1 Domain (1/3 Yr) 01-SSC-7579/01-SSC-7584 Up to 100 Users/2 Domain (1/3 Yr) 01-SSC-7580/01-SSC-7585 Up to 250 Users/5 Domain (1/3 Yr) 01-SSC-7581/01-SSC-7586	SonicWALL Comprehensive Anti-Spam Service adds powerful enterprise-class protection that can immediately improve network performance by eliminating spam, phishing and viruses from entering your network. With just one mouse click, you can enable advanced cloud-based inbound SMTP protection based on the same technology as in SonicWALL's award-winning line of Email Security software and appliances. Effective enough to be your primary anti-spam solution, or use in front of any existing anti-spam product as a first touch to reduce bandwidth consumption and improve security.
Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL® Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Edition		For NSA E5500 (2 Years/3 Years) 01-SSC-7338/01-SSC-7345 For NSA E6500 (2 Years/3 Years) 01-SSC-7337/01-SSC-7344 For NSA E7500 (2 Years/3 Years) 01-SSC-7336/01-SSC-7343	SonicWALL Content Filtering Service Premium Edition for the E-Class NSA Series enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
ViewPoint		For E-Class NSA Series 01-SSC-2901	SonicWALL® ViewPoint™ is an easy-to-use Web-based reporting tool that provides administrators with instant insight into the health of their network including both performance and security. Using a customizable dashboard and a variety of historical reports, SonicWALL ViewPoint helps organizations track network utilization, monitor security activity and view Web usage.
Global Management System		10-node License 01-SSC-3363 25-node License 01-SSC-3311	The SonicWALL® Global Management System (GMS™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.

## NSA Series

Product	NSA 240	NSA 2400	NSA 2400MX	NSA 3500	NSA 4500
Part Numbers	01-SSC-8756 01-SSC-8760 TotalSecure	01-SSC-7020 01-SSC-7095 (HA Upgrade)	01-SSC-7100 01-SSC-8854 TotalSecure	01-SSC-7016 01-SSC-7094 (HA Upgrade)	01-SSC-7012 01-SSC-7032 TotalSecure
Market Positioning and Specific Features	The NSA 240 is a next-generation UTM platform powered by a dual core processor. Perfect for branch and small offices, as well as for those requiring mobility with 3G support. Includes: <ul style="list-style-type: none"> <li>SonicOS Enhanced</li> <li>Multi-WAN Support</li> <li>ISP Failover and WAN Load Balancing</li> <li>Single Sign-On</li> <li>2 SSL VPN/2 VPN Client Licenses</li> <li>10/25* 802.1q VLAN Interfaces</li> <li>Object/Group-based Policy Mgmt.</li> <li>Stateful A/P High Availability (Option)</li> <li>Server Load Balancing</li> </ul>	A high performance, multi-service network security platform engineered to be the work horse of the small-to-medium and branch office business network environments with (6) six gigabit interfaces. Includes: <ul style="list-style-type: none"> <li>SonicOS Enhanced</li> <li>Multi-WAN Support</li> <li>ISP Failover and WAN Load Balancing</li> <li>Single Sign-On</li> <li>2 SSL VPN/10 VPN Client Licenses</li> <li>25 802.1q VLAN Interfaces</li> <li>Object/Group-based Policy Mgmt.</li> <li>Stateful A/P High Availability (Option)</li> <li>Server Load Balancing</li> </ul>	A high performance network security platform that combines high-speed intrusion prevention, file and content inspection, and powerful Application Intelligence with flexible, intelligent switching capabilities. Includes: <ul style="list-style-type: none"> <li>SonicOS Enhanced</li> <li>Increased Port Density (26 interfaces)</li> <li>PortShield Architecture</li> <li>ISP Failover and WAN Load Balancing</li> <li>Single Sign-On</li> <li>Advanced Switching/Routing Features</li> <li>25 802.1q VLAN Interfaces</li> <li>Object/Group-based Policy Mgmt.</li> <li>Server Load Balancing</li> </ul>	A high performance, multi-service network security platform engineered to be the work horse of the medium business network environment with (6) six gigabit interfaces. Includes: <ul style="list-style-type: none"> <li>SonicOS Enhanced</li> <li>Multi-WAN Support</li> <li>ISP Failover and WAN Load Balancing</li> <li>Single Sign-On</li> <li>2 SSL VPN/50 VPN Client Licenses</li> <li>50 802.1q VLAN Interfaces</li> <li>Object/Group-based Policy Mgmt.</li> <li>Stateful A/P High Availability (Option)</li> <li>Server Load Balancing</li> </ul>	Engineered to meet the needs of the growing businesses by providing a high performance, scalable, multi-function threat prevention appliance. Includes: <ul style="list-style-type: none"> <li>SonicOS Enhanced</li> <li>Multi-WAN Support</li> <li>ISP Failover and WAN Load Balancing</li> <li>Single Sign-On</li> <li>2 SSL VPN/500 VPN Client Licenses</li> <li>200 802.1q VLAN Interfaces</li> <li>Object/Group-based Policy Mgmt.</li> <li>Stateful A/P High Availability</li> <li>Server Load Balancing</li> </ul>
Bundled Services	<ul style="list-style-type: none"> <li>30 Days GAV, Anti-Spyware, IPS and Application Intelligence</li> <li>30 Days ViewPoint Reporting SW</li> <li>30 Days CFS Premium</li> <li>30 Days 25-user Client/Server Anti-Virus Suite</li> <li>90 Days 8x5 Support</li> </ul>	<ul style="list-style-type: none"> <li>30 Days GAV, Anti-Spyware, IPS and Application Intelligence</li> <li>30 Days ViewPoint Reporting SW</li> <li>30 Days CFS Premium</li> <li>30 Days 25-user Client/Server Anti-Virus Suite</li> <li>90 Days 8x5 Support</li> </ul>	<ul style="list-style-type: none"> <li>30 Days GAV, Anti-Spyware, IPS and Application Intelligence</li> <li>30 Days ViewPoint Reporting SW</li> <li>30 Days CFS Premium</li> <li>30 Days 25-user Client/Server Anti-Virus Suite</li> <li>90 Days 8x5 Support</li> </ul>	<ul style="list-style-type: none"> <li>30 Days GAV, Anti-Spyware, IPS and Application Intelligence</li> <li>30 Days ViewPoint Reporting SW</li> <li>30 Days CFS Premium</li> <li>30 Days 25-user Client/Server Anti-Virus Suite</li> <li>90 Days 8x5 Support</li> <li>30 Days Deep Packet Inspection SSL</li> </ul>	<ul style="list-style-type: none"> <li>30 Days GAV, Anti-Spyware, IPS and Application Intelligence</li> <li>30 Days ViewPoint Reporting SW</li> <li>30 Days CFS Premium</li> <li>30 Days 25-user Client/Server Anti-Virus Suite</li> <li>90 Days 8x5 Support</li> <li>30 Days Deep Packet Inspection SSL</li> </ul>
General Features Across all NSA Appliances	<ul style="list-style-type: none"> <li>Deep Packet Inspection Firewall</li> <li>Clean VPN</li> </ul>	<ul style="list-style-type: none"> <li>Dynamic Routing OSPF/RIP</li> <li>IPSec 3DES/AES Encryption</li> </ul>	<ul style="list-style-type: none"> <li>Voice and Video over IP</li> <li>Route-based VPN</li> </ul>	<ul style="list-style-type: none"> <li>DHCP Server/DHCP Relay</li> <li>Policy-based User Authentication</li> </ul>	<ul style="list-style-type: none"> <li>Clean Wireless</li> <li>Bandwidth Management/QoS</li> </ul>
Specifications	<ul style="list-style-type: none"> <li>Nodes: Unrestricted</li> <li>Interfaces: 3 GbE/6 FE, 2 USB, 1 PC Card</li> <li>Stateful Firewall Performance: 600 Mbps</li> <li>GAV Performance: 115 Mbps</li> <li>IPS Performance: 195 Mbps</li> <li>Full UTM Performance: 110 Mbps</li> <li>VPN Performance: 150 Mbps (3DES/AES)</li> <li>Site-to-Site VPN Policies: 25/50*</li> <li>Global VPN Client Licenses: 2 standard, non-shareable clients</li> <li>SSL VPN Client Licenses: 2 Bundled/15 Max</li> <li>Virtual Assist Technicians: 30-Day Trial (1 Technician)/5 Max</li> <li>Concurrent Connections: 85,000/110,000* (Max)</li> <li>New Connections/Second Support: 2,000</li> <li>1-Yr hardware/90 day 8x5 support</li> </ul>	<ul style="list-style-type: none"> <li>Nodes: Unrestricted</li> <li>Interfaces: 6 GbE, 2 USB (Future Use), 1 Console</li> <li>Stateful Firewall Performance: 775 Mbps</li> <li>GAV Performance: 160 Mbps</li> <li>IPS Performance: 275 Mbps</li> <li>Full UTM Performance: 150 Mbps</li> <li>VPN Performance: 300 Mbps (3DES/AES)</li> <li>Site-to-Site VPN Policies: 75</li> <li>Global VPN Client Licenses: 10 standard, non-shareable clients</li> <li>SSL VPN Client Licenses: 2 Bundled/25 Max</li> <li>Virtual Assist Technicians: 1 Bundled/5 Max</li> <li>Concurrent Connections: 225,000 (Max)</li> <li>New Connections/Second Support: 4,000</li> <li>1-Yr hardware/90 day 8x5 support</li> </ul>	<ul style="list-style-type: none"> <li>Nodes: Unrestricted</li> <li>Interfaces: 2+8 GbE, 16 FE, 2 USB, 1 Console</li> <li>Stateful Firewall Performance: 775 Mbps</li> <li>GAV Performance: 160 Mbps</li> <li>IPS Performance: 275 Mbps</li> <li>Full UTM Performance: 150 Mbps</li> <li>VPN Performance: 300 Mbps (3DES/AES)</li> <li>Site-to-Site VPN Policies: 75</li> <li>Global VPN Client Licenses: 10 standard, non-shareable clients</li> <li>SSL VPN Client Licenses: 2 Bundled/25 Max</li> <li>Virtual Assist Technicians: 1 Bundled/5 Max</li> <li>Concurrent Connections: 225,000 (Max)</li> <li>New Connections/Second Support: 4,000</li> <li>1-Yr hardware/90 day 8x5 support</li> </ul>	<ul style="list-style-type: none"> <li>Nodes: Unrestricted</li> <li>Interfaces: 6 GbE, 2 USB, 1 Console</li> <li>Stateful Firewall Performance: 1.5 Gbps</li> <li>GAV Performance: 350 Mbps</li> <li>IPS Performance: 750 Mbps</li> <li>Full UTM Performance: 240 Mbps</li> <li>VPN Performance: 625 Mbps (3DES/AES)</li> <li>Site-to-Site VPN Policies: 800</li> <li>Global VPN Client Licenses: 50 standard, non-shareable clients</li> <li>SSL VPN Client Licenses: 2 Bundled/30 Max</li> <li>Virtual Assist Technicians: 2 Bundled/10 Max</li> <li>Concurrent Connections: 325,000 (Max)</li> <li>New Connections/Second Support: 7,000</li> <li>1-Yr hardware/90 day 8x5 support</li> </ul>	<ul style="list-style-type: none"> <li>Nodes: Unrestricted</li> <li>Interfaces: 6 GbE, 2 USB, 1 Console</li> <li>Stateful Firewall Performance: 2.75 Gbps</li> <li>GAV Performance: 690 Mbps</li> <li>IPS Performance: 1.4 Gbps</li> <li>Full UTM Performance: 600 Mbps</li> <li>VPN Performance: 1.0 Gbps (3DES/AES)</li> <li>Site-to-Site VPN Policies: 1,500</li> <li>Global VPN Client Licenses: 500</li> <li>SSL VPN Client Licenses: 2 Bundled/30 Max</li> <li>Virtual Assist Technicians: 2 Bundled/10 Max</li> <li>Concurrent Connections: 500,000 (Max)</li> <li>New Connections/Second Support: 10,000</li> <li>1-Yr hardware/90 day 8x5 support</li> </ul>

## SonicWALL Security Services for NSA Series Products

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For NSA 240 (2 Years/3 Years) 01-SSC-9245/01-SSC-9246 For NSA 2400/MX (2 Years/3 Years) 01-SSC-9232/01-SSC-9239 For NSA 3500 (2 Years/3 Years) 01-SSC-9231/01-SSC-9238 For NSA 4500 (2 Years/3 Years) 01-SSC-9230/01-SSC-9237 For NSA 5000 (2 Years/3 Years) 01-SSC-9242/01-SSC-9243  <i>Note: TotalSecure solutions ship with one year of CGSS included</i>	SonicWALL Comprehensive Gateway Security Suite (CGSS) combines security, productivity, reporting and support in a single, low-cost solution. Available on all NSA Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> <li>▪ Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service and Application Intelligence</li> <li>▪ Content Filtering Service Premium Edition</li> <li>▪ Dynamic Support 24x7</li> <li>▪ ViewPoint Reporting Software</li> </ul>
Dynamic Support 8x5 and 24x7		Dynamic Support 8x5 SKUs by product Dynamic Support 24x7 SKUs by product  Discounted two- and three-year contracts available	For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL Dynamic Support Services delivers the support features and quality of service that organizations require to keep their networks running smoothly and efficiently. These services include: <ul style="list-style-type: none"> <li>▪ Annual subscription to software and firmware updates and upgrades</li> <li>▪ Access to telephone and Web-based support for installation, configuration and troubleshooting help</li> <li>▪ Advance exchange hardware replacement in the event of failure</li> <li>▪ Annual subscription to SonicWALL Service Bulletins and access to electronic support tools</li> </ul>
Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence		For NSA 240 (2 Years/3 Years) 01-SSC-6163/01-SSC-6164 For NSA 2400/MX (2 Years/3 Years) 01-SSC-6142/01-SSC-6158 For NSA 3500 (2 Years/3 Years) 01-SSC-6141/01-SSC-6157 For NSA 4500 (2 Years/3 Years) 01-SSC-6140/01-SSC-6156 For NSA 5000 (2 Years/3 Years) 01-SSC-6160/01-SSC-6161	SonicWALL Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention Service and Application Intelligence integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code.
Enforced Client Anti-Virus and Anti-Spyware		5-user License (1 Year) 01-SSC-2743 10-user License (1 Year) 01-SSC-2740 25-user License (1 Year) 01-SSC-2745 50-user License (1 Year/2 Year) 01-SSC-2741/01-SSC-2746 100-user License (1 Year/2 Year) 01-SSC-2742/01-SSC-2747	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. McAfee-based anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. <ul style="list-style-type: none"> <li>▪ Comprehensive virus and spyware protection using a single integrated client</li> <li>▪ Automated enforcement of virus and spyware protection policies</li> <li>▪ Automated deployments of anti-virus and anti-spyware definition and software updates</li> <li>▪ Full featured email attachment filtering</li> </ul>
Comprehensive Anti-Spam Service		Up to 10 Users/1 Domain (1/3 Yr) 01-SSC-7577/01-SSC-7582 Up to 25 Users/1 Domain (1/3 Yr) 01-SSC-7578/01-SSC-7583 Up to 50 Users/1 Domain (1/3 Yr) 01-SSC-7579/01-SSC-7584 Up to 100 Users/2 Domain (1/3 Yr) 01-SSC-7580/01-SSC-7585 Up to 250 Users/5 Domain (1/3 Yr) 01-SSC-7581/01-SSC-7586	SonicWALL Comprehensive Anti-Spam Service adds powerful enterprise-class protection that can immediately improve network performance by eliminating spam, phishing and viruses from entering your network. With just one mouse click, you can enable advanced cloud-based inbound SMTP protection based on the same technology as in SonicWALL's award-winning line of Email Security software and appliances. Effective enough to be your primary anti-spam solution, or use in front of any existing anti-spam product as a first touch to reduce bandwidth consumption and improve security.
Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL® Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Edition		For NSA 240 (2 Years/3 Years) 01-SSC-7342/01-SSC-7349 For NSA 2400/MX (2 Years/3 Years) 01-SSC-7341/01-SSC-7348 For NSA 3500 (2 Years/3 Years) 01-SSC-7340/01-SSC-7347 For NSA 4500 (2 Years/3 Years) 01-SSC-7339/01-SSC-7346 For NSA 5000 (2 Years/3 Years) 01-SSC-7351/01-SSC-7352	SonicWALL Content Filtering Service Premium Edition for the NSA Series enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies.
UTM SSL VPN		1-user License 01-SSC-8629 5-user License 01-SSC-8630 10-user License 01-SSC-8631 25-user License 01-SSC-8632 50-user License 01-SSC-8633	SSL VPN on SonicWALL NSA Series UTM appliances uses NetExtender technology to provide seamless and secure access to any resource on the corporate network from a variety of client platforms. NetExtender is a lightweight client that is pushed onto the user's machine and is installed and configured automatically, requiring no interaction. NetExtender can be installed as a light weight client on Windows, Linux and OS X providing fast and easy remote access from virtually anywhere.
Global Management System		10-node License 01-SSC-3363 25-node License 01-SSC-3311	SonicWALL® Global Management System (GMS™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.

## SonicWALL Security Services for TZ Series Solutions

Product		Part Numbers	Description
Comprehensive Gateway Security Suite		For TZ 180 Series Unrestricted Node (1 Year) 01-SSC-6895 For TZ 180 Series 10 and 25 Node (1 Year) 01-SSC-6892 For TZ 170/190 Series Unrestricted Node (1 Year) 01-SSC-5844 For TZ 170 Series 10 and 25 Node (1 Year) 01-SSC-5845 For TZ 100 Series (1 Year) 01-SSC-9256 For TZ 200 Series (1 Year) 01-SSC-9253 For TZ 210 Series (1 Year) 01-SSC-9247 <i>Note: TotalSecure solutions ship with one year of CGSS included</i>	SonicWALL Comprehensive Gateway Security Suite (CGSS) combines security, productivity, reporting and support in a single, low-cost solution. Available on all TZ Series appliances, it is the perfect solution for turning your customers' SonicWALLs into total security and productivity platforms. The Comprehensive Gateway Security Suite is available in one, two and three-year subscriptions that include the following: <ul style="list-style-type: none"> <li>▪ Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service</li> <li>▪ Content Filtering Service Standard Edition (TZ 180/190) or Premium Edition (TZ 100/200/210)</li> <li>▪ ViewPoint Reporting Software</li> <li>▪ Dynamic Support 24x7</li> </ul> <b>Discounted two- and three-year contracts available</b>
Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service		For TZ 180 Series Unrestricted Node (1 Year) 01-SSC-6915 For TZ 180 Series 10 and 25 Node (1 Year) 01-SSC-6912 For TZ 190 Series (1 Year) 01-SSC-5751 For TZ 100 Series (1 Year) 01-SSC-6171 For TZ 200 Series (1 Year) 01-SSC-6168 For TZ 210 Series (1 Year) 01-SSC-6165	Available on SonicWALL TZ Series appliances, SonicWALL Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service integrates gateway anti-virus, anti-spyware and intrusion prevention to deliver intelligent, real-time network security protection against a comprehensive array of dynamic threats including viruses, spyware, worms, Trojans and software vulnerabilities such as buffer overflows, as well as peer-to-peer and instant messenger applications, backdoor exploits, and other malicious code. <b>Discounted two- and three-year contracts available</b>
Enforced Client Anti-Virus and Anti-Spyware		5-user License (1 Year) 01-SSC-2743 10-user License (1 Year) 01-SSC-2740 25-user License (1 Year) 01-SSC-2745 50-user License (1 Year/2 Year) 01-SSC-2741/01-SSC-2746 100-user License (1 Year/2 Year) 01-SSC-2742/01-SSC-2747	SonicWALL Enforced Client Anti-Virus and Anti-Spyware provides comprehensive protection with little administrative overhead. McAfee-based anti-virus and anti-spyware policies are automatically enforced network-wide whenever new threats appear. <b>Discounted two- and three-year contracts available</b> <ul style="list-style-type: none"> <li>▪ Comprehensive virus and spyware protection using a single integrated client</li> <li>▪ Automated enforcement of virus and spyware protection policies</li> <li>▪ Automated deployments of anti-virus and anti-spyware definition and software updates</li> <li>▪ Full featured email attachment filtering</li> </ul>
Comprehensive Anti-Spam Service		Up to 10 Users/1 Domain (1/3 Yr) 01-SSC-7577/01-SSC-7582 Up to 25 Users/1 Domain (1/3 Yr) 01-SSC-7578/01-SSC-7583 Up to 50 Users/1 Domain (1/3 Yr) 01-SSC-7579/01-SSC-7584 Up to 100 Users/2 Domain (1/3 Yr) 01-SSC-7580/01-SSC-7585 Up to 250 Users/5 Domain (1/3 Yr) 01-SSC-7581/01-SSC-7586	SonicWALL Comprehensive Anti-Spam Service adds powerful enterprise-class protection that can immediately improve network performance by eliminating spam, phishing and viruses from entering your network. With just one mouse click, you can enable advanced cloud-based inbound SMTP protection based on the same technology as in SonicWALL's award-winning line of Email Security software and appliances. Effective enough to be your primary anti-spam solution, or use in front of any existing anti-spam product as a first touch to reduce bandwidth consumption and improve security.
Virtual Assist		Up to 1 Technician 01-SSC-5967 Up to 5 Technicians 01-SSC-5974 Up to 10 Technicians 01-SSC-5971 Up to 25 Technicians 01-SSC-5972	SonicWALL® Virtual Assist is a remote support tool that enables a technician to assume control of a customer's PC or laptop for the purpose of providing remote technical assistance. With the customer's permission, the technician can gain instant access to a computer using a Web browser, making it easy to diagnose and fix a problem remotely without the need for a pre-installed "fat" client.
Content Filtering Service Premium Business Edition		For TZ 150/170/180/190 Series (1 Year) 01-SSC-5650 For TZ 100 Series (1 Year) 01-SSC-8637 For TZ 200 Series (1 Year) 01-SSC-8634 For TZ 210 Series (1 Year) 01-SSC-7371	SonicWALL Content Filtering Service Premium Edition enhances protection and productivity for businesses and schools by employing an innovative rating architecture utilizing a dynamic database of URLs, IPs and domains to block over 50 categories of objectionable Web content. An easy-to-use management interface provides network administrators with greater control to transparently enforce acceptable use policies. <b>Discounted two- and three-year contracts available</b>
ViewPoint		For TZ Series 01-SSC-2901	SonicWALL® ViewPoint™ is an easy-to-use Web-based reporting tool that provides administrators with instant insight into the health of their network including both performance and security. Using a customizable dashboard and a variety of historical reports, SonicWALL ViewPoint helps organizations track network utilization, monitor security activity and view Web usage.
Global Management System		10-node License 01-SSC-3363 25-node License 01-SSC-3311	The SonicWALL® Global Management System (GMS™) provides organizations, distributed enterprises and service providers with a flexible, powerful and intuitive solution to centrally manage and rapidly deploy SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions. SonicWALL GMS also provides centralized real-time monitoring, and comprehensive policy and compliance reporting.
Dynamic Support 8x5 and 24x7		Dynamic Support 8x5 SKUs by product Dynamic Support 24x7 SKUs by product  <b>Discounted two- and three-year contracts available</b>	For customers who need continued protection through ongoing firmware updates and advanced technical support, SonicWALL Dynamic Support Services delivers the support features and quality of service that organizations require to keep their networks running smoothly and efficiently. These services include: <ul style="list-style-type: none"> <li>▪ Annual subscription to software and firmware updates and upgrades</li> <li>▪ Access to telephone and Web-based support for installation, configuration and troubleshooting help</li> <li>▪ Advance exchange hardware replacement in the event of failure</li> </ul>

# SonicWALL Security Solutions

## SSL VPN for the Enterprise: SonicWALL Aventail

<b>Product</b>	SonicWALL Aventail SSL VPNs provide granular application access control by first detecting the security of the end point, protecting applications with granular policy based on who the user is and the end point used for access, and then connecting authorized employees and business partners effortlessly from a broad range of cross-platform devices only to authorized resources.													
<b>Key Features</b>	<p>Detect what is running on the end point device.</p> <ul style="list-style-type: none"> <li>▪ <b>End Point Control</b> provides interrogation of managed and non-managed devices prior to connecting and on a recurring schedule in order to detect the identity of the device and determine the overall trust level</li> <li>▪ <b>Cache Control</b> purges browser cache, session history, cookies and passwords</li> <li>▪ <b>Secure Desktop</b> offers advanced data protection technology that creates a virtual encrypted environment that prevents sensitive data from being left behind</li> </ul>		<p>Protect applications with granular access control based on user identity and device integrity.</p> <ul style="list-style-type: none"> <li>▪ <b>Policy Zones</b> provide administrators with the ability to easily create allow, deny and quarantine zones that govern access for all users and devices based on device identity and device integrity</li> <li>▪ <b>Unified Policy</b> is the enforcement engine for protecting corporate resources, consolidating control of all Web resources, file shares and client/server resources in a single location, ensuring users only access authorized applications</li> </ul>		<p>Connect users easily and securely to applications across all device types.</p> <ul style="list-style-type: none"> <li>▪ <b>WorkPlace Portal</b> provides users with a personalized and policy-driven Web portal providing easy access to Web and client/server applications from virtually any device or location</li> <li>▪ <b>Smart Access</b> dynamically determines and deploys the appropriate access methods and end point interrogation within the WorkPlace portal based on the type of device used as well as user-level permissions</li> <li>▪ <b>Connect Tunnel</b> provides the same end point control and access control options as the WorkPlace portal, with the only difference being that the user instead launches an agent directly from their device versus launching a portal</li> <li>▪ <b>Connect Mobile</b> provides secure access to client/server and Web based applications from Windows Mobile PDAs and Smartphones</li> </ul>

## SSL VPN for the SMB

Product	SSL-VPN 4000/SRA 4200	SSL-VPN 200
Part Numbers	01-SSC-5960 (SSL-VPN 4000) 01-SSC-5980 (SRA 4200 50 Users)	01-SSC-5946
Market Positioning and Specific Features	<p>The SonicWALL SSL-VPN 4000 (optimized for 200 concurrent users) and SRA 4200 (up to 50 concurrent users) provide mid-size enterprises with a simple, affordable secure and clientless remote network and application access solution for remote and mobile employees. Users can easily and securely access e-mail, files, intranets, remote desktops; Citrix (ICA) based applications and other resources on the corporate LAN from any location through a standard Web browser.</p> <p>Includes:</p> <ul style="list-style-type: none"> <li>Seamless integration behind virtually any firewall</li> <li>NetExtender technology on Windows, Mac and Linux operating systems provides advanced remote access capabilities</li> <li>Granular policy configuration controls</li> <li>Personalized portal experience with context-sensitive help</li> <li>Tokenless two factor authentication</li> <li>Remote support capability using SonicWALL® Virtual Assist</li> <li>NetExtender mobile device support to access an entire intranet as well as Web-based applications</li> <li>Basic IPv6 support in anticipation of the new standard</li> <li>Application offloading to secure access to Web applications</li> </ul>	<p>The SonicWALL SSL-VPN 200 provides small businesses (optimized for 10 concurrent users) with a simple, clientless, cost effective alternative to IPsec remote access VPN and remote access software. Using a standard web browser, users can easily and securely access e-mail, files, intranets, remote desktops and other resources on the corporate LAN from any location.</p> <p>Includes:</p> <ul style="list-style-type: none"> <li>Seamless integration behind virtually any firewall</li> <li>NetExtender technology provides advanced remote access capabilities</li> <li>Granular policy configuration controls</li> <li>Personalized portal experience with context-sensitive help</li> <li>Clientless connectivity – no pre-installed VPN client is required</li> <li>Tokenless two factor authentication</li> <li>NetExtender mobile device support to access an entire intranet as well as Web-based applications</li> </ul>

## Universal Management Appliance (UMA)

Product	E-Class UMA EM5000	How to Purchase														
Part Numbers	01-SSC-7665 Includes 10 node GMS Software License and 1-year Hardware Warranty															
Market Positioning and Specific Features	<p>The SonicWALL® E-Class Universal Management Appliance (UMA) EM5000 centralizes policy management, monitoring and reporting for multiple SonicWALL appliances. The EM5000 provides an easier way to configure, enforce and manage policies for SonicWALL firewall, anti-spam, backup and recovery, and secure remote access solutions, enhancing efficiency, availability, and ROI. The EM5000 simplifies and automates multi-level policy management, monitoring, and compliance reporting thereby reducing overhead and freeing resources for new revenue opportunities. The UMA EM5000 is ideal for deployments scaling from a few to thousands of SonicWALL appliances or services, in small-to-mid-enterprise, large enterprise, managed service provider, or IT consulting environments. Includes:</p> <ul style="list-style-type: none"> <li>Unified policy management</li> <li>Comprehensive monitoring and automated alerting</li> <li>Custom and template-based reporting</li> <li>Centralized logging for deep forensic analysis and remediation</li> <li>Secure, reliable and optimized hardware architecture</li> <li>Intuitive management dashboard</li> <li>Online and offline management capabilities</li> <li>High-availability services across multiple sites</li> <li>Web services, SNMP, and CLI based integration options</li> </ul>	<ol style="list-style-type: none"> <li>Purchase appliance</li> <li>Add additional GMS node licenses as needed using the existing GMS software SKUs</li> <li>Add Support <ul style="list-style-type: none"> <li>Use existing GMS software support SKUs</li> <li>Use existing Comprehensive GMS Support SKUs</li> <li>Use new hardware warranty SKUs</li> </ul> </li> </ol> <p>Example: 60 Node Deployment</p> <table border="1"> <thead> <tr> <th>SKU</th> <th>Description</th> <th>Comments</th> </tr> </thead> <tbody> <tr> <td>01-SSC-7665 Quantity: 1</td> <td>Universal Management Appliance EM5000 with 10 Node GMS Software License</td> <td>Base Hardware: comes with 10 nodes and includes one year of hardware warranty</td> </tr> <tr> <td>01-SSC-3301 Quantity: 2</td> <td>GMS 25 Node Software Upgrade</td> <td>Increase node license by 50 to a total of 60</td> </tr> <tr> <td>01-SSC-6514 Quantity: 1</td> <td>GMS E-CLASS 24x7 Software Support for 10 Nodes (1 Year)</td> <td rowspan="2">Support SKUs for the 60 software nodes provide support for the entire deployment, including the Appliance</td> </tr> <tr> <td>01-SSC-3334</td> <td>GMS E-CLASS 24x7 Software Support for</td> </tr> </tbody> </table>	SKU	Description	Comments	01-SSC-7665 Quantity: 1	Universal Management Appliance EM5000 with 10 Node GMS Software License	Base Hardware: comes with 10 nodes and includes one year of hardware warranty	01-SSC-3301 Quantity: 2	GMS 25 Node Software Upgrade	Increase node license by 50 to a total of 60	01-SSC-6514 Quantity: 1	GMS E-CLASS 24x7 Software Support for 10 Nodes (1 Year)	Support SKUs for the 60 software nodes provide support for the entire deployment, including the Appliance	01-SSC-3334	GMS E-CLASS 24x7 Software Support for
SKU	Description	Comments														
01-SSC-7665 Quantity: 1	Universal Management Appliance EM5000 with 10 Node GMS Software License	Base Hardware: comes with 10 nodes and includes one year of hardware warranty														
01-SSC-3301 Quantity: 2	GMS 25 Node Software Upgrade	Increase node license by 50 to a total of 60														
01-SSC-6514 Quantity: 1	GMS E-CLASS 24x7 Software Support for 10 Nodes (1 Year)	Support SKUs for the 60 software nodes provide support for the entire deployment, including the Appliance

## CDP Series

Product	CDP 110	CDP 210	CDP 5040	CDP 6080
Part Numbers	01-SSC-9300	01-SSC-9309	01-SSC-9303	01-SSC-9304
Market Positioning and Specific Features	<p>The SonicWALL® Continuous Data Protection (CDP) 110 is ideal for smaller distributed environments and remote or branch offices requiring complete end-to-end disk-based backup and recovery for multiple workstations and servers with a capacity of up to 800 GB (at standard 2:1 compression ratios). The low-touch CDP 110 automatically enforces policy-driven, user-transparent backups of multiple versions of files and applications—including Exchange and SQL databases. The CDP 110 offers flexible disaster recovery options for Local Archiving, Offsite Data Backup, Site-to-Site Data Backup, and Bare Metal Recovery of entire systems onto original, virtual or new Windows or Linux® devices.</p>	<p>The SonicWALL® Continuous Data Protection (CDP) 210 is ideal for small distributed environments and remote or branch offices requiring complete end-to-end disk-based backup and recovery for multiple workstations and servers with a capacity of up to 2 TB (at standard 2:1 compression ratios). The low-touch CDP 210 automatically enforces policy-driven, user-transparent backups of multiple versions of files and applications—including Exchange and SQL databases. The CDP 210 offers flexible disaster recovery options for Local Archiving, Offsite Data Backup, Site-to-Site Data Backup, and Bare Metal Recovery of entire systems onto original, virtual or new Windows or Linux® devices.</p>	<p>The SonicWALL® Continuous Data Protection (CDP) 5040 is ideal for small-to-medium size organizations demanding high performance and capacity. The CDP 5040 offers automatic disk-based backup and recovery for multiple CDP Series Positioning workstations and server applications, capacity of up to 4.5 TB (at standard 2:1 compression ratios), flexible disaster recovery options, RAID 5 and replaceable drives. The low-touch CDP 5040 automatically enforces policy-driven, user transparent backups of multiple versions of files and applications—including Exchange and SQL databases. The CDP 5040 offers flexible disaster recovery options for Local Archiving, Offsite Data Backup, Site-to-Site Data Backup, and Bare Metal Recovery of entire systems onto original, virtual or new Windows or Linux® devices.</p>	<p>The SonicWALL® CDP 6080 is ideal for medium size organizations demanding higher performance and capacity, offering automatic disk-based backup and recovery for multiple workstations and server applications, capacity from 4.5-9 TB (at 2:1 compression), flexible disaster recovery options, RAID 5, and replaceable drives and power supplies. See below for details of the optional 4.5TB upgrade Kit. The low-touch CDP 6080 automatically enforces policy-driven, user-transparent backups of multiple versions of files and applications—including Exchange and SQL databases. The CDP 6080 offers flexible disaster recovery options for Local Archiving, Offsite Data Backup, Site-to-Site Data Backup, and Bare Metal Recovery of entire systems onto original, virtual, or new Windows or Linux® devices.</p>

Product	CDP Site-to-Site	CDP Offsite Service	CDP 6080 4 Disk Pack Upgrade Kit	CDP 110/210 5 Server Applications License
Part Numbers	01-SSC-6480/3	Available in 1-Yr Subscription	01-SSC-9307	01-SSC-9306
Market Positioning and Specific Features	<p>SonicWALL CDP Site-to-Site Backup is an offsite backup and recovery solution that securely send business critical data from one CDP appliance located in a primary site to another CDP appliance located in a secondary site over the Wide Area Network (WAN) or Local Area Network (LAN) for disaster recovery (DR) protection. Only the latest version of data required for DR is securely transmitted and encrypted with AES 256-bit encryption technology during data transmission and data at-rest for maximum security from cyber threats.</p> <p>This feature enables organizations to be fully operational quickly after a disaster event. Using a simple-to-use user interface, organizations can easily recover business critical data from a CDP appliance in the secondary site to a new CDP appliance located in a new primary site after a disaster event.</p>	<p>The CDP Offsite Service provides an offsite backup and recovery solution that stores the data in a secure data center, enabling enterprises to be up and running quickly after a disaster event. All data is securely transmitted and encrypted with an AES 256-bit encryption key. IT Administrators can recover the data through a simple interface in the event the CDP unit at the local level is not viable.</p> <p>5Gb of Yearly Offsite Storage - 01-SSC-6340            10Gb of Yearly Offsite Storage - 01-SSC-6341            25Gb of Yearly Offsite Storage - 01-SSC-6344            50Gb of Yearly Offsite Storage - 01-SSC-6347            75Gb of Yearly Offsite Storage - 01-SSC-6348            100Gb of Yearly Offsite Storage - 01-SSC-6349</p>	<p>The SonicWALL CDP 6080 4 Disk Pack Upgrade Kit consists of 4 additional drives that can be added to the CDP 6080 to bring the total usable capacity up to 9TB.</p> <p>Once the License Key for this additional SKU is inserted into the system, the additional 4.5TB of capacity becomes available for use.</p>	<p>The CDP 110 and CDP 210 do not support Server applications in the base configurations. They are intended for single-user platform support such as desktops and/or laptops. To support Server applications on the CDP 110 and CDP 2310, it is necessary to acquire this optional license that allows the support of up to 5 Server Applications (such as Exchange, Active Directory, MS SQL, etc.)</p>

Bare Metal Recovery

SonicWALL

Bare Metal Recovery

SonicWALL

Bare Metal Recovery

Product	Bare Metal Restore/Local Archiving for CDP Series - Server	Bare Metal Restore w/Universal Restore for CDP Series - Server	Bare Metal Restore/Local Archiving for CDP Series - Workstation
Part Numbers	01-SSC-6390	01-SSC-6496	01-SSC-6391
Market Positioning and Specific Features	<p>SonicWALL Bare Metal Recovery/Local Archiving software creates an exact image of an entire server - including the operating system files, programs, databases, and settings, enabling the recovery of an entire system in minutes. Customers can also explore their bare metal archives to recover individual files and folders using Windows' familiar drag-and-drop file copying operation. Moreover, its wizard-driven graphical user interface (GUI) is easy-to-use, making it an ideal application for even novice PC users.</p> <p>Key Features:</p> <ul style="list-style-type: none"> <li>▪ Instant bare-metal recovery and local archiving</li> <li>▪ Restoration of individual files and folders from archived images</li> <li>▪ Easy to use Windows, XP-like wizard interface.</li> <li>▪ Support for SAN, NAS, RAID, CD/DVD, USB, IEEE1394, SCSI and other backup storage</li> <li>▪ Support for all operating systems, including: Windows 2003 Server, Windows 2000 Advanced Server, Windows 2000 Server, Windows NT4.0 Server SP6</li> </ul>	<p>SonicWALL Universal Restore is an add-on module for SonicWALL Bare Metal Recovery Sever Edition software which allows recovery of server system state images to dissimilar physical or virtual hardware regardless of make, model, or installed components. SonicWALL Universal Restore enables you to take the last known clean image from the source machine and import drivers associated with the new machine into the restore process. Because the image is captured at the disk sector level, it already includes all your configuration, application and user files. SonicWALL Universal Restore reduces infrastructure investment. Since you can restore to any hardware, you'll need fewer hot spares. Disaster recovery planning tools that enable business continuity are requirements for every business. SonicWALL Universal Restore prepares you for even the most unforeseen events so that no matter what type of disaster you're recovering from, so long as you have an image, you can restore it.</p> <p>Key Features:</p> <ul style="list-style-type: none"> <li>▪ Disaster recovery - restore a disk image to either identical or dissimilar hardware</li> <li>▪ Physical and Virtual Server restoration - (Physical to Physical, Physical to Virtual, Virtual to Virtual or Virtual to Physical)</li> <li>▪ Easy to use wizard-driven interface</li> <li>▪ Support for BartPE and WinPE pre-installation environments</li> </ul>	<p>SonicWALL Bare Metal Recovery/Local Archiving software creates an exact image of an entire system - including the operating system, applications and all user data, or an individual disk partition, enabling the recovery of an entire system in minutes. Customers can also explore their bare metal archives to recover individual files and folders using Windows' familiar drag-and-drop file copying operation. Moreover, its wizard-driven graphical user interface (GUI) is easy-to-use, making it an ideal application for even novice PC users.</p> <p>Key Features:</p> <ul style="list-style-type: none"> <li>▪ Instant bare-metal recovery and local archiving</li> <li>▪ Restoration of individual files and folders from archives images</li> <li>▪ Easy to use Windows, XP-like wizard interface.</li> <li>▪ Support for SAN, NAS, RAID, CD/DVD, USB, IEEE1394, SCSI and other backup storage</li> <li>▪ Support for workstation operating systems: Win98, 2000 Professional, ME, XP, NT4.0 workstation SP6</li> </ul>

# SonicWALL Security Solutions

## Email Security -- In 3 Easy Steps:

### Step 1: Appliance or Software

#### Software Platform

SonicWALL Email Security Software is for the organizations that desire an email security solution to run on their existing Windows 2000 or 2003 Server system.

#### Software – 01-SSC-6636

System Requirements: Windows Server 2000 or 2003 on a server with at least 1 GB RAM, 40 GB hard disk free, 2.66 GHz CPU.

#### Appliance Platform

SonicWALL Email Security Appliances come with the SonicWALL Email Security software pre-installed.

#### Appliance Platforms for the SMB

These SMB systems are designed for optimal performance at an affordable price. The ES-500 comes with RAID-1, while the ES-300 does not.

#### Model ES 300 – 01-SSC-6601

1 GB RAM, 80 GB hard drive, 2.66 GHz CPU

#### Model ES 500 – 01-SSC-6603

1 GB RAM, 2x80 GB HD (RAID-1), 2.66 GHz CPU

#### Appliance Platforms for the Enterprise

These systems offer comprehensive, yet cost effective e-mail security and are designed to provide the ultimate in scalability and flexibility and ease of management.

#### Model ES 6000 – 01-SSC-6604

2 GB RAM, 2x160 GB HD (RAID-1), 3.2 GHz CPU

#### Model ES8300 – 01-SSC-6609

4 GB RAM, 4x750 GB HDD (RAID-5),

Quadcore 2 GHz CPU

### Step 2: Add Email Protection

This required subscription activates features in the SonicWALL Email Security (SES) system, Appliance or Software, for up to the number of users purchased. This subscription comes with either 8x5 or 24x7 Dynamic Support services.

#### Features

SonicWALL Email Protection subscription with Dynamic Support (8x5 or 24x7) provides threat protection for SonicWALL Email Security Software or Appliances. Includes:

- Anti-Spam, Anti-Phishing & Anti-Virus automatic updates from the SonicWALL GRID Network
- Software and firmware updates
- Phone-based support (8x5 or 24x7), Web-based support anytime
- RMA for the appliance - One (1) year warranty for repair or replacement of any defective product due to manufacturer's defects]

#### User Packs

#### 8 x 5 Support

#### 24 x 7 Support

25 user pack	01-SSC-6659	01-SSC-6669
50 user pack	01-SSC-6660	01-SSC-6670
100 user pack	01-SSC-6666	01-SSC-6676
250 user pack	01-SSC-6661	01-SSC-6671
500 user pack	01-SSC-6667	01-SSC-6677
750 user pack	01-SSC-6662	01-SSC-6672
1,000 user pack	01-SSC-6668	01-SSC-6678
2,000 user pack	01-SSC-6663	01-SSC-6673
5,000 user pack	01-SSC-6664	01-SSC-6674
10,000 user pack	01-SSC-6716	01-SSC-6730

User Packs can be quantity stacked to obtain the desired number of users for a given subscription, i.e. 75 users = 50 user pack + 25 user pack.

### Step 3: Add Optional Protection

There are three optional subscriptions which can be added to SonicWALL Email Security systems. The number of users must be the same as the Email Protection subscription.

#### Email Compliance Subscription

Includes: Compliance Dictionaries, Attachment Scanning, Approval Boxes, Record ID matching, Archiving, Encryption and compliance reports

25 user pack	01-SSC-6639
50 user pack	01-SSC-6640
100 user pack	01-SSC-6646
250 user pack	01-SSC-6641
500 user pack	01-SSC-6627
750 user pack	01-SSC-6642
1,000 user pack	01-SSC-6648
2,000 user pack	01-SSC-6643
5,000 user pack	01-SSC-6644
10,000 user pack	01-SSC-6735

#### Anti-Virus Subscriptions

Includes: McAfee and/or Kaspersky signature updates, SonicWALL Time-Zero Anti-Virus and Zombie detection

	McAfee	Kaspersky
25 user pack	01-SSC-6759	01-SSC-6769
50 user pack	01-SSC-6760	01-SSC-6770
100 user pack	01-SSC-6766	01-SSC-6776
250 user pack	01-SSC-6761	01-SSC-6771
500 user pack	01-SSC-6767	01-SSC-6777
750 user pack	01-SSC-6762	01-SSC-6772
1,000 user pack	01-SSC-6768	01-SSC-6778
2,000 user pack	01-SSC-6763	01-SSC-6773
5,000 user pack	01-SSC-6764	01-SSC-6774
10,000 user pack	01-SSC-7562	01-SSC-7565

## SonicWALL Email Security for Microsoft Windows Small Business Server (SES for SBS)

#### Product

SES for SBS

#### Part Numbers

SES for SBS - 1 Server + 25 User (1 Yr) 01-SSC-7600  
SES for SBS - Renewal/Upgrade - 25 User (1 Yr) 01-SSC-7610

#### Description

SonicWALL® Email Security for Microsoft Small Business Server (SES for SBS) provides award-winning e-mail protection for both inbound and outbound e-mail. SES for SBS is specifically designed to install directly on the SBS hardware server and stops over 98% of spam.
